

do not throw him off. He arrived at Gravesend yesterday, and seems to be none the worse for his trip.

Sir Walter comes next. He is "The Evening World's" choice to win the great race and his chances are good. He is a four-year-old bay colt by Middleton, out of La Scala, and is the property of Dr. Gideon Leary. He is a good, game and true. He has speed, and will try to be the last one there in the year, and his best work thus far this year has been a mile and a quarter in 2:13 over the Jerome Park course. Sir Walter's races were all good last year, in fact he did not lose a single one, though putting up tremendous weight at times. His best race was at Monmouth park, when he carried 125 lbs. and won a mile and a quarter in 2:08.2. He won easily. Sir Walter can be depended on to run a good, game race, and the one that beats him will get the money.

Don Alonso is M. F. Dwyer's candidate. He is a four-year-old bay colt, by Long Saw, out of Lady. He is a good, game and true. He has speed, and will try to be the last one there in the year, and his best work thus far this year has been a mile and a quarter in 2:13 over the Jerome Park course. Sir Walter's races were all good last year, in fact he did not lose a single one, though putting up tremendous weight at times. MANY LIVES IN PERIL.

Greenwich Street Tenement-House Likely to Collapse.

Front Wall Bulges Out and Shakes When "L" Trains Pass.

Though Alive to the Danger, Tenants Are Loath to Leave.

Six families, comprising about thirty people, have for some days been living virtually in the shadow of death in the condemned four-story tenement-house at 106 Greenwich street.

Strange to say, although they fully realized their danger, they have continued to live in a death-trap and even now, when a tardy warning has been given them, they are loath to leave.

The building is owned by the estate of John Dwyer, who for years kept a little clothing store on the ground floor. It is fully eighty years old, and fifteen years ago began to show signs of weakness.

Numerous complaints have been entered by the tenants in the neighborhood, and several half-hearted attempts have been made to prop up the ramshackle structure. The building is what is known as a "false front"—that is, the front wall is of brick, while the sides and rear are of wood.

To-day the north half of the front wall bulges outward fully ten inches at the top, and every train that passes on the North Avenue elevated road sends a tremor through the whole mass of brick and mortar pitching forward on the heads of the tenants who live in the building.

Inside the building the state of affairs is even more alarming. The front wall is of brick, while the sides and rear are of wood. To-day the north half of the front wall bulges outward fully ten inches at the top, and every train that passes on the North Avenue elevated road sends a tremor through the whole mass of brick and mortar pitching forward on the heads of the tenants who live in the building.

Inside the building the state of affairs is even more alarming. The front wall is of brick, while the sides and rear are of wood. To-day the north half of the front wall bulges outward fully ten inches at the top, and every train that passes on the North Avenue elevated road sends a tremor through the whole mass of brick and mortar pitching forward on the heads of the tenants who live in the building.

Inside the building the state of affairs is even more alarming. The front wall is of brick, while the sides and rear are of wood. To-day the north half of the front wall bulges outward fully ten inches at the top, and every train that passes on the North Avenue elevated road sends a tremor through the whole mass of brick and mortar pitching forward on the heads of the tenants who live in the building.

To-day the north half of the front wall bulges outward fully ten inches at the top, and every train that passes on the North Avenue elevated road sends a tremor through the whole mass of brick and mortar pitching forward on the heads of the tenants who live in the building.

is still more alarming. Owing to the bulging of the front wall the ends of the floor beams on the upper floors have been pulled partly out of their resting places, and the warped walls and cracked ceilings show how the building has been racked by the settling of the foundations and swaying of the walls.

This state of affairs might have been remedied if the owner, Henry Merten, who has a shop in the basement, had not been served with a dispossession warrant yesterday.

Merten's wife was aroused and he sent word to the police department. This that they would see something interesting if they went to 106 Greenwich street.

An inspector went around last yesterday afternoon. It took but a glance to tell him that many lives were in danger.

He hurried around to the Church street station and asked that the police notify the tenants that the house might come tumbling about their ears at any moment.

A policeman was sent to apprise the tenants of their danger and was ordered to stand watch until a more careful examination could be made by the Building Department.

The feature of the bank statement is the expansion of \$2,500,000 in loans. Deposits are up \$3,400,000, because of the increase in loans. The gain in the year is about \$500,000. The changes in specie and legal-tenders were comparatively slight.

The following are the comparative figures: April 21, May 5, Increase. Loans, \$2,500,000 to \$2,500,000. Deposits, \$3,400,000 to \$3,400,000. Specie, \$9,467,300 to \$9,467,300. Legal-tenders, \$17,414,100 to \$17,414,100. Treasury notes, \$2,627,300 to \$2,627,300. Circulation, \$10,139,800 to \$10,139,800.

The following are the comparative figures: April 21, May 5, Increase. Loans, \$2,500,000 to \$2,500,000. Deposits, \$3,400,000 to \$3,400,000. Specie, \$9,467,300 to \$9,467,300. Legal-tenders, \$17,414,100 to \$17,414,100. Treasury notes, \$2,627,300 to \$2,627,300. Circulation, \$10,139,800 to \$10,139,800.

SUDDEN DECLINE IN SUGAR.

Just at the Close of Trading It Fell Four Points.

Other Industrials Yielded, but Recovered a Trifle.

Extreme dullness prevailed at the Stock Exchange in the early trading to-day. Sugar was rather more prominent than the rest, first declining 1/2, to 105-1/2, and later recovering to 105-1/2. The other industrials were devoid of feature.

MRS. DE WOLF WANTS DIVORCE.

Her Husband Installed Mrs. Grace Gotthold in Her Place.

Tappan Residents Threatened the Lawyer with Tar and Feathers.

Lawyer Peter C. De Wolf, of the Bennett Building, 90 Nassau street, did not reach his office until after noon to-day. He lives, when at home, in Tappan, N. Y., but Mr. De Wolf said he had not been in Tappan in a week.

His departure was preceded by a series of extremely lively incidents in which Lawyer De Wolf, his wife and a vivacious blonde named Mrs. Grace Gotthold, wife of Eugene Gotthold, figured as principals, while a number of Tappanites, jealous of the town's good name, acted as supernumeraries.

The net results so far are the determination of Mrs. De Wolf to sue for a divorce, naming Grace Gotthold as co-respondent, a suit against the latter by Mrs. De Wolf for alienation of her husband's affection and the determination of Lawyer De Wolf to fight the matter to the bitter end.

According to Lawyer William L. Melbrook, of 35 Broadway, De Wolf has for the past three years been infatuated with Mrs. Gotthold, who is the wife of Eugene Gotthold, a traveling agent for M. Grossman & Sons, of 131 Canal street. He says they have occupied different rooms in the Hotel de Ville, and are now living under the names of Mr. and Mrs. Peter Conklin.

Under some pretext De Wolf induces his wife to leave her Tappan residence and come to New York. She is to hold there. Mrs. De Wolf returned suddenly to find her place usurped.

The attorney of De Wolf to sue for a divorce, naming Grace Gotthold as co-respondent, a suit against the latter by Mrs. De Wolf for alienation of her husband's affection and the determination of Lawyer De Wolf to fight the matter to the bitter end.

THIS BEAUTIFUL DIME SAVINGS BANK IS Presented to a 11 Subscribers

ABRAHAM LINCOLN, when about to leave his old home after having attained the highest honors a great nation could bestow, closed an address with these words:

"Neighbors, give your boys a chance." These are days of exacting competition, days when moral courage and brain power count, days wherein there can be only a survival of the men who are mentally and physically the fittest.

Fathers, qualify your boys for the battle they must wage in the world's great arena. The day must come when their chairs will be empty by your fireside and they will be out struggling alone in the world, with only their merit to aid them.

You, mothers, know the pride you have in your sons. You know that deep down in your hearts there is a well of tenderness and of love for even the erring one. You know, as all the world does, that his success is heaven to you, and his failure a heartache keener even than his own. What, then, should you do? In the words of Lincoln, "Give your boy a chance."

Give him an education that will fit him to cope with the best. Teach him to love his home, and teach him that in it he will find civilizing and educational influences. If he has been to college don't let his education stop there. If he has not enjoyed the advantages of a good education, encourage him now. He may be smart naturally, but if he has nothing but his natural talents to help him there will surely come a time, just as he is mounting highest, when this lack of education will handicap him grievously.

The time to remedy this is the present. In the magnificent edition of the Encyclopedia Britannica now offered to WORLD readers you will have a library fully the equal of any in the land.

Drop a card to The World Company, Publishers of the World Edition Encyclopedia Britannica, 187 Broadway, N. Y., and a volume will be sent for examination, or call at the same address and examine this elegant library.

I Can't Eat I Can't Sleep

Is the lament of many people, not usually this season. The indicate distur system, declining blood, nerve weakness.

HOOD'S Sarsaparilla Possesses the power to charm away these troubles. It does temporary sleep or nerve supplying. Nature's demands and healthy strength, it gives

Natural Sleep And by its "magic touch," as many sufferers of the stomach organs to the their natural

A Good Appetite Is the natural result. If you need a good Sp nerve tonic or

\$4,950,000 IN GOLD GONE.

Boston Adds \$500,000 to New York's Shipments for the Week.

The week just ending has witnessed the heaviest export of gold that has occurred for many months past, the aggregate amount of the yellow metal carried out of the port since Monday being \$4,950,000. From Boston \$500,000 was shipped to-day, making a total export of \$2,500,000 from both ports for the week.

Of the gold sent from here, the Treasury received \$1,500,000, the balance was furnished by the banks. The shipments excite but little comment from bankers and dealers, principally because the balance of trade is largely in our favor, and on account of the large supply of money held in the banks.

The chief point of interest lies in the fact that the large shipments have taken the gold reserve, once more below the hundred million mark.

Wall Street Notes. The imports of specie at the port of New York for the week were \$2,072,000, of which \$1,000,000 were gold and \$1,072,000 were silver. The corresponding week of 1893 the imports were \$1,111,000.
